Evergreen Receives Unprecedented Third Consecutive LOG-NET E-Commerce Award for 2016 at TPM Conference

March 7, 2017 – For an unprecedented third consecutive year and the fifth time overall, Evergreen Line received the E-Commerce Excellence Award from LOG-NET, a leading information systems integrator of ocean carriers and their customers, at the recent Trans-Pacific Maritime conference held in Long Beach, CA.

LOG-NET gave the award in conjunction with the Journal of Commerce, which was accepted by Lawrence Lee, President of Evergreen Marine Corporation (Taiwan). Also present to accompany Lawrence Lee were Roy Amalfitano, Vice Chairman of Evergreen Shipping Agency (America) Corp. (EGA), North America agents for Evergreen Line and Benjamin Tsai, the company's President.

EGA Vice Chairman Amalfitano said: "We are honored and appreciate the recognition. This award is a testament to the hardworking and collective efforts by the entire Evergreen team, committed to providing customer service excellence and always striving for continual improvement. In our nearly 50-year history, we are honoring our

commitments to the importers and exporters that we serve."

He added: "Despite the many challenges liner shipping faced in 2016, Evergreen continued to commit resources and invest in what our valued customers need to remain competitive. As a third consecutive year recipient of LOG-NET's e-commerce award, this is an amazing affirmation and a direct reflection of how the Evergreen team worldwide continues to work for the growth and success of our valued customers."

LOG-NET's evaluation analysed customer set-up, data completeness, accuracy, timeliness and deployment across customers of multiple sizes and geographic domains. The competition also factored in error detection and remediation. The award is acknowledged as the top honor for electronic commerce in the international trade and transportation industry and recognizes Evergreen's commitment to customers in every area of online operations.

LOG-NET President John Motley said, "After completing our scoring and evaluations we have determined that once again the Evergreen team scored well in all geographies and in all customer size classes."

Mr. Motley added: "While we saw some challenges in the carrier community keeping up with requests for interface set-ups and provisioning of electronic services, Evergreen did an outstanding job in the face of great competition. This award recognizes these successes."

Founded in 1991 and headquartered in N.J., LOG-NET was established to provide the world's finest solutions for the international trade, transportation and logistics industries. The company has grown from a supplier of custom logistics solutions into a developer of integrated trade management applications across the globe.
