## **INTTRA Expands Visibility and Streamlines Digital NVOCC Offering With Cloud-Based Info-X**

**Parsippany, NJ and New York, NY, January 22, 2018** -- INTTRA, the largest neutral electronic transaction platform, software and information provider at the center of the ocean shipping industry, and Info-X Software Technology today announced the newest service offering from the companies' longstanding partnership.

Info-X, a premier logistic software solutions and back-office service provider for global NVOCCs and Freight Forwarders, has integrated its new cloud-based transportation management system with INTTRA's robust booking engine enabling communication between numerous parties across INTTRA's network.

United Cargo Management (UCM), a prominent US-based NVOCC, piloted the new system to accept electronic bookings and shipping instructions from their customers, ensuring speedier cargo bookings and providing real-time cargo tracking and tracing that was previously unavailable. Carlton W. Blair III, CTO of UCM, said, "With this technology-driven platform, Info-X and INTTRA have proactively addressed the problems related to cargo bookings faced by many shippers and NVOCCs."

"INTTRA is the neutral network at the center of the ocean shipping industry and a valued partner for our platform," said Rishi Parti, CEO of Info-X. "Info-X strives to differentiate through innovation. With INTTRA driving our solution, we'll work to lower the communication barriers between shipper and NVOCCs seeking real-time visibility and automation."

"Info-X is known for helping customers address the complexities of global transportation with tools that are flexible, efficient, and easily adaptable to existing business processes," said Sherrie Orzechowski, Vice President of Strategic Alliances, INTTRA. "We're thrilled to expand our relationship with Info-X to address challenges to drive efficiency and cost savings across the industry to the benefit of our mutual customers."

#### **About INTTRA**

INTTRA is the largest neutral electronic transaction platform, software and information provider at the center of the ocean shipping industry. INTTRA's innovative products, combined with the scale of our network, empower our customers to trade with multiple parties and leverage ocean industry information to improve their business. Connecting over 225,000 shipping professionals with more than 50 leading Carriers and over 120 software alliance partners, INTTRA streamlines the ocean trade process. Over 700,000 container orders are initiated on the INTTRA platform each week, representing over one quarter of global ocean container trade.

#### **About Info-X Software Technology**

Info-X specializes in developing innovative IT solutions and providing outsourced back office services for the logistics industry. It has been, for the last 16 years, the trusted global partner for several logistics companies in US and Europe. Info-X provides solutions for the entire supply chain including rate management, shipping documents, custom filing, FMC rate filing, ocean cargo tracking and full accounting. Leveraged by its extensive industry knowledge of logistics and understanding of the complexities involved, Info-X has helped companies improve their efficiencies, get 99.9% accuracies in transactions, and experience overall cost-reductions of up to 40%.
